Project Description

As stated on the project disclosure page, in supporting Asia and the Pacific region to combat climate change, ADB in 2021 announced its ambition to provide \$100 billion in cumulative climate finance from its own resources by 2030, including \$34 billion in cumulative adaptation finance. ADB has also committed to aligning its operations with the goals of the Paris Agreement, and to ensure that all project activities advance low-carbon and climate resilient-development pathways as stated in the Paris Agreement goals. Meanwhile, ADB's guidance documents in dealing with the COVID-19 pandemic and in promoting Livable Cities also outline climate resilience as one of the pillars to build back better and to ensure inclusive, healthy, environmentally sustainable, and resilient cities. As a continuation of the support through UCCRTF, this TA will strengthen ADB's increased climate resilience ambition.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
