Building Institutional Capacity: Delivering Operational Priority 3 under ADB's Strategy 2030

Project Description

According to the bank's website, "The knowledge and support technical assistance (TA) will support activities to scale-up the operationalization of Strategy 2030's Operational Priority 3 (OP3) on tackling climate change, building climate and disaster resilience and enhancing environmental sustainability. The TA will enhance the knowledge and skills of representatives of developing member countries (DMCs) to (i) mobilize, track and report on climate finance, (ii) enhance management of climate and disaster risks, and (iii) ensure strategies and efforts of DMCs are aligned with the Paris Agreement temperature goals of 2 degrees Celsius with aspiration of reaching 1.5 degrees Celsius."

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
