## **Project Description**

According to ADB website, as of 28 April 2020, there were more than 3.1 million infected cases reported worldwide, with around 217,000 deaths. The virus is now spread across 211 countries and territories all over the world. With the extent of spread and the rising number of positive cases everyday, the pandemic poses serious concerns over the potential economic impact going forward. The International Monetary Fund, in its recent April 2020 projection, has estimated the global growth in 2020 to fall to negative 3%, a downgrade of 6.3 percentage points from its January 2020 estimate. Growth in advanced economies is projected at -6.1%.

This project aims to mitigate the adverse socioeconomic effect of COVID-19 to poor and vulnerable groups.
