Project Description

According to the Bank's website, the Primary Healthcare and Public Health Laboratories Upgrading and Strengthening Project will assist the Ministry of Health in strengthening primary care services and public health laboratories. Along with three multilateral development banks, ADB will cofinance the provision of equipment to upgrade and enhance the capacity of primary care facilities and public health laboratories throughout the country. It will also help address the adverse health impact of climate change and improve the preparedness and resilience of the health system to handle future public health threats. The outcome of project will be equitable access to primary care and public health laboratory services for the prevention, detection, and treatment of communicable and noncommunicable diseases, and other health conditions, expanded.
