Project Description

According to the ADB, the project aims to improve water security, reduce climate vulnerability, and increase access to safe and reliable water supply in Uzbekistan by improving the operational efficiency of its water supply and sanitation utilities. It will achieve this by: (i) modernizing water management systems based on smart information technology (IT) solutions to improve asset management and sustainability of services delivery; and (ii) strengthening institutional capacity, including the role of women in service delivery, to enable better decision-making and enhance water management and efficiency of energy use to mitigate climate change through improved data quality and system processes.

The project will be executed by Uzsuvtaminot JSC, the national entity that manages municipal WSS assets through 17 regional utilities (suvtaminots).

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
