### Project Description

According to the ADB, the project aims to improve water security, reduce climate vulnerability, and increase access to safe and reliable water supply in Uzbekistan by improving the operational efficiency of its water supply and sanitation utilities. It will achieve this by: (i) modernizing water management systems based on smart information technology (IT) solutions to improve asset management and sustainability of services delivery; and (ii) strengthening institutional capacity, including the role of women in service delivery, to enable better decision-making and enhance water management and efficiency of energy use to mitigate climate change through improved data quality and system processes.

The project will be executed by Uzsuvtaminot JSC, the national entity that manages municipal WSS assets through 17 regional utilities (suvtaminots).
