Project Description

As stated by the ADB, the program aims to improve the quality of health care as stipulated in the Government Program, 2021-2026, Health Sector Strategy 2023-2026, the UHI Concept Paper, and the Quality of Care Strategy 2022-2026.

The proposed RBL program is aligned with the following impact: personal and public health improved. The outcome of the RBL program will be quality of health care improved, measured by (i) amenable deaths for chronic conditions reduced; (ii) in-hospital mortality for acute myocardial infarction reduced; and (iii) hospitalization rate for ambulatory care sensitive conditions reduced. The program will have the following outputs: (i) infrastructure and equipment to provide quality health services improved; (ii) capacity and organization for quality of care strengthened; and (iii) quality improvement interventions and monitoring institutionalized.

Disbursement-linked indicators (DLIs) may include (i) amenable deaths for chronic conditions reduced; (ii) in-hospital mortality for acute myocardial infarction reduced; (iii) health facilities upgraded or constructed and equipped with consideration of climate-resilience and gender responsiveness; (iv) institutional structure and leadership, including for female leaders, for quality of care strengthened; (v) availability of qualified health workers improved; (vi) gender- and climate-responsive quality of care standards and improvement tools piloted in selected number of marzes (regional administrative entities) and approved for nationwide scale-up; and (vii) health facilities reporting quality indicator data on time.

Early Warning System Project Analysis

The ADB categorized the project E&S risks as follows:

Environment	B
Involuntary Resettlement	C
Indigenous Peoples	C

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
