Project Description

As stated by the ADB, the Improving Science, Technology, Engineering and Mathematics Secondary Education Project for Tajikistan aims to promote equal access to quality secondary education of science, technology, engineering and mathematics (STEM) from grades 5 to 11. The project aims to build a human capital base to support Tajikistan's transition to higher labor productivity and competitiveness. It will strengthen gender-inclusive access to quality secondary education in STEM subjects and develop climate change awareness among the country's secondary school graduates. The project proposes to modernize teaching, upgrade the learning environment, improve school management, introduce and integrate climate change education, and expand girls' participation in STEM studies and women's career paths towards high productivity sectors.

The project has five outputs:

Output 1: Quality of STEM education improved;

Output 2: Learning environment improved;

Output 3: School-level management strengthened;

Output 4: Climate change education and disaster resilience capacity enhanced;

Output 5: Female-friendly STEM education system promoted.
