### Project Description

According to ADB documents, the project is a financial intermediation loan for a line of credit of up to \$150 million from the ordinary capital resources of the Asian Development Bank (ADB) to the Government of Bangladesh. The fund will be relented to Bangladesh Bank, the central bank, for on-lending to participating financial institutions (PFIs). The PFIs will lend the funds to micro and small enterprises started or operated by targeted vulnerable groups—unemployed youth, returning migrant workers, and rural entrepreneurs—with a focus on women entrepreneurs. The transaction technical assistance (TA) totaling \$900,000 will help strengthen the institutional capacity of Bangladesh Bank and PFIs and will support the project implementation. The project is included in ADB's Bangladesh country operations business plan, 2021-2023.<sup>1</sup>

The project's impact is rapid recovery from coronavirus disease (COVID-19) pandemic to restore employment, income, and economic activities.<sup>2</sup> The project will have the following outcome: adverse economic effects of COVID-19 on migrants, youth, and rural entrepreneurs mitigated. The project's outputs are (i) financial support to enterprises started or operated by migrants, rural enterprises, and youth from the formal banking sector increased; (ii) capacity of employment-supporting institutions strengthened; and (iii) action plan for promoting formal banking sector support for cottage, micro, and small enterprises (CMSEs) developed.

The project will help enhance the productivity and skills of the workforce, and create gainful employment opportunities, all of which are priority areas in ADB's country partnership strategy, 2016-2020 for Bangladesh, and is included in the country operations business plan, 2020-2022. The project is well aligned with the operational priorities of ADB's Strategy 2030. The project will help alleviate poverty by creating employment opportunities and supporting entrepreneurship (Operational Priority 1). The project will help strengthen governance and the institutional capacity of several key institutions crucial for employment creation (Operational Priority 6) and support gender equality by incorporating gender elements by providing inclusive financing and gender-sensitive capacity-building activities (Operational Priority 2). Moreover, in line with ADB's Strategy 2030, the project will help promote private sector development. Given the severe challenge of COVID-19, the needs of the country in all these areas take on much increased urgency and the impact of ADB support is magnified.

### Early Warning System Project Analysis

The ADB categorized the project E&S risks as 'FI-C', and stated that given the environmental categorization of the project is FI-C, the implementing agency and the PFIs are disbursing funds to CMSEs in compliance with relevant environmental requirements.

### Investment Description

- Asian Development Bank (ADB)

### Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
