Project Description

According to the bank's website, "The TA will have the following outcome: resilience and sustainability of food supply chain enhanced. The subproject is aligned with the following overall impact of the TA cluster: resilient ecological protection and security in the Yellow river basin achieved. The subproject will support the overall TA cluster outputs by (i) supporting institutional, policy and governance reforms to take an integrated approach throughout food supply chains to address environmental, climate and food security risks (cluster output 1), (ii) exploring the opportunity to apply digital technology tools and other new approaches to improve the resilience and sustainability of food supply chains (cluster output 2), and (iii) sharing the lessons of integrated development in food supply chains in the Asia-Pacific region and promoting the PRC as a model (cluster output 3). When these elements are combined it will increase high-quality development opportunities in the Yellow river basin."
