According to the bank's website, "The TA objective is to develop and strengthen DMC capacity to implement ADB-financed projects, by providing EAs/IAs of ADB-financed projects with capacity building in ADB procedures. The TA aims to consolidate and further strengthen the institutional approach for delivering capacity development programs. The proposed support will progressively introduce new materials and instruments including: (i) generate options for low-cost assessment of EA capacity in ADB procedures (procurement, financial management, safeguards and gender) and develop tools for training needs assessment; (ii) develop modular tailored training to EAs with different capacity by introducing refresher courses, online and virtual training and helpdesk; and (iii) foster South-South knowledge sharing and cross-learning on flagship investment projects and good practices."
