Project Description

Under this project ADB is going to provide Technical support to Kyrgyz government for improvement of the functionality and security of the Kyrgyz government e-procurement system (e-GP) by developing and introducing data asymmetric encryption and digital signature and procurement and installation of equipment critical for data management.

PROJECT OBJECTIVES & IMPACT

This program-Government e-GP portal is widely used by government agencies and State-Owned Enterprises (SOE), but in the recent years, the Public Procurement Department (PPD) has experienced problems related to security and malfunctioning of the e-GP system and the agency has no resources (finacial and expertise) to resolve them. Also, despite the functional enhancements made in the recent years, there is need to enhance the system functionality to handle the end-to-end procurement processes entirely online.

The following impact is expected from this TA: improved public administration in the Kyrgyz Republic through better functionality of national e-procurement system.

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
