Project Description

According to the ADB project page, The Technical Assistance (TA) is attached to the concept paper for a proposed loan of \$125 million supporting financial inclusion of Micro, Small, and Medium-Sized Enterprises (MSME) and income-generating households in Pakistan. The objective of the proposed project is to restore economic resilience of the household and MSME borrowers in response to the ongoing COVID-1 crisis and help kick-start lending.

PROJECT RATIONALE AND LINKAGE TO COUNTRY/REGIONAL STRATEGY

In June 2020 Pakistan's microfinance industry serviced approximately 6.9 million borrowers with outstanding loans of approximately \$1.9 billion (PRs 299 billion). Since 2015 the micro and small enterprise (MSE) loan book has grown at a compound average growth rate (CAGR) of 35% while client outreach increased at a CAGR of 20%. However, due to the economic decline in 2019 and COVID-19, client outreach and loan disbursements to households dropped sharply and further decline is anticipated until end 2021. Women borrowers were particularly hard hit declining 9% from June 2019-June 2020.
