## Project Description

According to the Bank's website, the grant provides funding to the Georgian government to meet the most urgent needs in healthcare system caused by the Covid19 pandemic, including improvement of laboratory diagnostic and testing capacity, procurement of personal protective equipment and other medical equipment.

The grant will complement ADB's comprehensive package of support to Georgia designed to contain COVID-19 impact. The package includes a \$100 million loan approved in May 2020 and a \$200 million loan approved in October 2020 to respond to Georgia's immediate health and socioeconomic needs and support a return to inclusive economic growth by addressing the longstanding institutional fragilities in social protection, fiscal and debt management that were exacerbated by the pandemic. ADB has also provided grant support to Georgia in August 2020 to procure PCR equipment for the COVID-19 health response.
