Project Description

According to the ADB, the technical assistance seeks to strengthen institutional capacity, identify and create investment proposals for priority sites and develop a financing mechanism to support the East Asian-Australasian Flyway in the long-term. The TA will establish a framework to identify sites of highest priority within the EAAF. The TA will engage with participating developing member countries to strengthen protection and sustainable use of these sites. A subsequent investment framework will be completed where investment proposals are developed for each site maximizing biodiversity gains as well as co-benefits and improvements to local livelihoods. The TA will then establish a financing mechanism to generate financial resources particularly from EAAF Partnership members that are Asian Development Bank donor countries, to maintain both priority sites and regional flyway initiatives in the long-term.

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
