Project Description

According to the bank's website, "The TA Subproject 2 will have the following outcome: resilience in water management enhanced. This subproject outcome will support the achievement of the TA cluster outcome of resilient investments and policies in the water sector increased by raising the awareness and improving the capacity of selected municipal and village governing bodies, utilities, or water resource management entities, or other water-related organizations and agencies on resilience. It will support the TA cluster outputs by (i) providing project preparation and implementation support to operations departments in integrating resilient practices, mainly on integration of information and communication technology (ICT), digital, and remote sensing technologies in projects and programs, and (ii) supporting the establishment of Asia-Pacific Water Resilience Hub to build the capacity, increase awareness and knowledge base for resilience in water supply and sanitation services delivery and water resources management."
