### **Project Description**

According to ADB documents, the transaction technical assistance will provide emergency supply of oxygen to reduce fatalities from the second wave of COVID-19 pandemic, and build capacity of stakeholders to effectively implement the national vaccination program by addressing the gap areas identified by the due diligence assessments of the proposed Responsive COVID-19 Vaccines for Recovery (RECOVER) Project under APVAX.

The RECOVER Project will provide vaccines eligible under APVAX criteria while the TA support will provide catalytic operational support through a program management unit, monitoring of vaccination sites, building private sector capacity for vaccination, strengthening biomedical waste (BMW) management capacity, effective risk communication targeting vulnerable groups, improved outreach employing solar-powered cold chain equipment, and providing evidence-based policy inputs to enhance health system preparedness for future pandemics.

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
