The TA will further support the preparation of the ensuing COVID-19 vaccine financing project under APVAX

PROJECT RATIONALE AND LINKAGE TO COUNTRY/REGIONAL STRATEGY

The third wave of the COVID-19 pandemic revealed the vulnerabilities in the country's health system capacity that require an urgent need to improve the health systems in managing emergency medical services (EMS), strengthen coordination between health facilities, and improve the capacity to respond to COVID-19 and future pandemics. Consultations with the Ministry of Health (MOH) expressed that the vulnerabilities to be addressed immediately are due to (i) inefficient EMS for COVID-19 patients; (ii) unintegrated health information system (HIS) across health facilities, which is needed for effective COVID-19 patient information sharing during case referrals; (iii) unavailability of tracking and identifying COVID-19 variants; (iv) inadequate mental health support for COVID-19 survivors and frontline health professionals involved in COVID-19 response; and (v) lack of long-term planning for the COVID-19 pandemic response and vaccination.
