Project Description

As stated by the ADB, the principal objective of the Programmatic Approach is to deepen financial markets and strengthen fiscal management and sustainability in Armenia. The Programmatic Approach comprises three subprograms and the Program is its second subprogram.

The scope of the Program includes (a) strengthened fiscal management, public debt and fiscal risk management, and infrastructure investment sustainability; (b) improved government securities market and money market infrastructure; and (c) broadening the base of financial instruments and investors, and enhancing corporate transparency. The Program is described in more detail in the Policy Letter and the PDMF.

The technical assistance (TA) of \$400,000, funded on a grant basis by the Asian Development Bank (ADB) Technical Assistance Special Fund (TASF-other sources), will help sustain subprogram 2 reforms into the future and implement the key reform objectives of subprogram 3 of the ongoing Fiscal Sustainability and Financial Markets Development Program.

The TA will support the government in further strengthening its fiscal management policies and practices, improving the infrastructure of money markets and the government securities market, and promoting capital markets.
