Project Description

According to the bank's website, "The knowledge and support technical assistance (TA) will support the countries of Southeast Asia (SEA) to transition to a cleaner energy future. While this transition is already underway in some countries, the pace of the transformation needs to be accelerated across the region to avert a development path inconsistent with the goals of the Paris Agreement. This transition needs to be just and inclusive, ensuring affordable, reliable, and equitable access to energy services. The proposed TA will assist SEA countries with a comprehensive package of solutions that will include: (i) the preparation of sectoral and country-specific assessments; (ii) the development of new business models, feasibility reports, and other technical studies; (iii) the conduct of workshops and policy dialogues; and (iv) the development of project investment pipelines to be financed by the Asian Development Bank (ADB) and other development partners."

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
