Project Description

According to the Bank’s website, the knowledge and support technical assistance (TA) will strengthen the organizational capacity of Mongolia's Ministry of Road and Transport Development (MRTD) to effectively coordinate the collection of transport information across government agencies. MRTD requested this assistance as a follow up to the TA for Intelligent Transport Systems Development for Mongolia, which recommended mainstreaming the organizational response for better traffic management by establishing a National Integrated Traffic Information Center (NITIC). The TA will develop operational procedures for establishing NITIC, design a conceptual integration architecture for the digital platform to consolidate traffic data, and strengthen the capacity of key MRTD staff.

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
