## Project Description

According to the bank's website, the "knowledge and support technical assistance (TA) will support Asian Development Bank's (ADB) developing member countries (DMCs) in localizing the sustainable development goals (SDGs) through innovative, integrated, inclusive, and gender-responsive approaches with the aim to support the attainment of meeting the targets for the 2030 Agenda for Sustainable Development (2030 Agenda), and in improving the quality, accessibility, and inclusivity of public service delivery. The key outputs under the TA are: (i) case studies of innovative initiatives in localizing SDGs; (ii) an information technology-based local SDG monitoring system; and (iii) portfolios of integrated development solutions at the subnational government (SNG) level. The TA builds on the TA for Strengthening Institutions for Localizing Agenda 2030 for Sustainable Development (TA 9387), and complements the TA for Advancing the 2030 Agenda for Sustainable Development, 2021-2024."
