### **Project Description**

According to the bank's website, the project through its technical assistance (TA) "will assess existing challenges in estimating greenhouse gas emissions of financial institutions in DMCs, identify necessary data sets required for such estimations, explore practical approaches/models for estimating GHG emissions, and provide practical recommendations on how to improve/encourage corporate disclosure of carbon footprints. A small-scale TA is appropriate because assessing and estimating carbon footprint of a pre-defined financial institution need not be resource intensive."

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
