Investment Type(s)	Advisory Services, Grant
Investment Amount (USD)	\$ 1.50 million
Grant Amount (USD)	\$ 1.50 million
Project Cost (USD)	\$ 1.50 million

Project Description

As stated by the ADB, The Government of Bangladesh requested technical assistance (TA) to support implementing subprogram 2's policy actions and the post-program partnership framework of the Climate-Resilient Inclusive Development Program by providing policy advice, knowledge, and capacity-building support. The TA will operationalize the Bangladesh Climate and Development Partnership (BCDP), especially in setting up the BCDP secretariat under the leadership of the government and in establishing working groups related to policy and project development, implementation, and coordination with development partners, the private sector, and other stakeholders. The TA will also help the BCDP mobilize concessional climate finance, particularly from global climate funds, and blend it with other sources of development finance. Based on the initial capacity assessment, the TA will also support key ministries and local government agencies in (i) increasing awareness of the National Adaptation Plan (NAP) and nationally determined contributions (NDC) update;² (ii) developing or expanding climate databases, such as the Disaster and Climate Risk Information Platform, and strengthening the capacity of relevant ministries to use climate data and analytics in policy and project planning and implementation; (iii) developing a pipeline of priority climate-related projects, in line with NAP and NDC update priorities; (iv) developing technical, fiduciary, and procurement capacity to implement large-scale climate projects; (v) accessing global climate funds by obtaining accreditation and improving the transparency of climate budgeting and expenditure; and (vi) establishing a centralized monitoring and evaluation (M&E) system to track progress in achieving climate outcomes. The TA will also support the preparation of poverty and social impact analysis for subprogram 2.

Investment Description

- Asian Development Bank (ADB)

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
