Project Description

According to the ADB, the regional transaction technical assistance facility will provide support to a series of ensuing and ongoing projects of the developing member countries of the Asian Development Bank in South Asia.

It aims to enhance the integration of gender equality and social inclusion (GESI) in the design of ensuing projects and the GESI results of ongoing projects. To strengthen the capacity of the executing and implementing agencies in mainstreaming GESI in these projects, this TA facility also includes two forms of knowledge and network development support that are not integrated in the design of the ongoing and ensuing projects: capacity and network development to mainstream GESI in the transition of the energy sector from fossil fuel to carbon-neutral economy and replicating the networking approach in urban development infrastructure sectors. The second form encompasses broader knowledge development support through training, studies, and knowledge product development.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
