Project Description

According to the Bank's website, the proposed TA will support Pacific DMCs of ADB to enhance gender equality results through provision of targeted technical support, policy advice, knowledge sharing, and capacity building.

It will improve gender mainstreaming at entry for new projects and support implementation of ongoing gender-mainstreamed projects across various sectors during 2024-2029, as well as support implementation of countries policies and gender action plans. It will help build the capacity of executing and implementing agencies in preparing, implementing, and monitoring project gender assessment and action plans. The TA will provide continued resources to sustain the achievements made under the previous technical assistance, while expanding to also include project preparation support, development of knowledge products, and innovative approaches for gender mainstreaming, including through pilot projects.
