Project Description

According to the Bank’s website, the knowledge and support technical assistance (TA) will provide institutional support and implementation capacity to the Just Energy Transition Partnership Secretariat (JETP Secretariat), established in February 2023, to bolster the technical work, coordination, and operationalization of Indonesia's Just Energy Transition Partnership (I-JETP). The Asian Development Bank (ADB) is the lead development partner providing institutional support and implementation capacity to the Secretariat. The I-JETP was launched on 15 November 2022 as a collaboration between the (i) Government of Indonesia; (ii) International Partners Group (IPG), consisting of the governments of Canada, Denmark, France, Germany, Italy, Japan, Norway, the United Kingdom, and the United States, as well as the European Union; and (iii) Glasgow Financial Alliance for Net Zero. Japan and the United States co-lead the IPG for the I-JETP. The I-JETP aims to support Indonesia's accelerated and socially just energy transition, including the accelerated deployment of renewable energy and a phase-down of on-grid and off-grid coal-fired electricity generation, a more climate-resilient economy, and, ultimately, economy-wide net-zero emissions.
