ADB-57066-001

Solomon Islands: Capacity Development for Sustainable Rivers Management

### **Project Description**

As stated by the ADB, the knowledge and support technical assistance (KSTA) will assist the Solomon Islands Government to strengthen the policy framework, primary and secondary legislation in water resources management harmonized with international best practice. The KSTA scope will include the development of environmental flow guidelines and a strategic assessment of the planned hydropower developments in the country's river system.

#### **ACCESS TO INFORMATION**

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

### **ACCOUNTABILITY MECHANISM OF ADB**

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
