Project Description

As stated by the ADB, the technical assistance will provide project preparation support to a series of ensuing investment projects, comprising the (i) Second Access to Clean Energy Investment Program, and (ii) Second Transmission Strengthening Project. All ensuing projects are among the government's priorities for the energy sector and will require a similar set of due diligence, design, and readiness activities, which will be supported by this TA, thereby reducing transaction costs. Capacity building of the counterpart government agencies and policy advice support provided to the government under this TA is essential for sustainability of all these projects.

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
