ADB-57117-001

Climate-Resilient Water and Sanitation Services Project

### Quick Facts

<b>Countries</b>	Uzbekistan
<b>Specific Location</b>	Andijan, Djizzak and Fergana provinces, and Republic of Karakalpakstan
<b>Financial Institutions</b>	Asian Development Bank (ADB)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	B
<b>Borrower</b>	Government of Uzbekistan
<b>Sectors</b>	Infrastructure, Water and Sanitation
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 270.00 million
<b>Loan Amount (USD)</b>	\$ 270.00 million

---

### Project Description

As stated by the ADB, the proposed project will assist the government in addressing climate vulnerabilities and enhancing public health and economic conditions by ensuring inclusive access to safe, reliable, climate-resilient, and sustainable WSS services for the residents of Andijan, Djizzak and Fergana provinces; and the Republic of Karakalpakstan.

The project will help upgrade and expand the WSS infrastructure in the project regions and support regional suvtaminots in implementing transformational changes. The physical investments will be supplemented with targeted institutional strengthening, including enhancement of operational capabilities of regional suvtaminots on the development of district metering areas (DMAs) and NRW reduction practices.

This will involve establishing specialized operations and maintenance (O&M) teams for effective management of both new and rehabilitated WSS assets to ensure sustainable and resilient WSS service delivery. Furthermore, the project will promote awareness of water conservation, health, sanitation, and hygiene with particular emphasis on empowering women and vulnerable populations.

### Early Warning System Project Analysis

The ADB categorized project risks as follows:

Environment - B;

Involuntary Resettlement - B;

Indigenous Peoples - C.

---

### Investment Description

- Asian Development Bank (ADB)

---

### Private Actors Description

As stated by the ADB, Uzsuvtaminot Joint Stock Company (UJSC), established in 2019, is a government-owned entity responsible for improving and expanding water supply and sanitation (WSS) services throughout the country, serving 22.2 million people through its 17 regional WSS utilities (suvtaminots).

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
