Project Description

As stated by the ADB, the regional transaction TA facility will support the development of bankable ongoing and prospective projects to be implemented through Public-Private Partnerships (PPP) in developing member countries (DMCs) in south, central and west Asia across different sectors. These projects will: (a) take the form of Public-Private Partnerships (PPP), and (b) advance private sector participation and market development in the subject DMCs. The TA facility will enable OPSP to provide transaction advisory services (TAS) and to engage technical, legal, financial and other subject matter experts in support of TAS as needed.

The provision of ADB transaction advisory service in the DMCs mentioned above is expected to catalyze private sector capital in the provision of infrastructure assets and services, thereby helping DMCs enhance enabling environments for private sector-led growth. Under Strategy 2030, ADB will expand its support for PPPs by providing transaction advisory services and assisting in project preparation, structuring, and monitoring for successful commercial and financial closure. ADB will scale up its transaction advisory services to help its public sector clients structure PPPs and develop robust and bankable project pipelines. The above projects are also aligned with sectoral priorities of each of the DMC's Country Partnership Strategies (CPS).

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
