## Project Description

According to the Bank's website, the technical assistance (TA) will support finance sector sovereign and the Asian Development Bank's One ADB initiatives in project development, project and program processing and implementation, and related institutional and capacity development and knowledge work. It will assist Southeast Asian developing member countries (DMCs) in green and climate finance, including energy transition, municipal finance, infrastructure and housing finance, digital finance and financial inclusion, and finance sector reforms. As such, the TA will support sector diagnostics, policy dialogue and reforms, financial due diligence, and other relevant activities. In One ADB initiatives, the TA will enable innovative structures such as commercial guarantees and re-guarantee arrangements. The TA will support projects and programs prioritized in national development strategies and ADB's development mandate. The activities will address constraints restricting the flow of commercial finance, such as absence of risk-based pricing and market failure in lower-income and informal sector housing and municipal finance. Likewise, TA activities will address suboptimal risk sharing in public-private partnership (PPP) projects, weak local government fiscal consolidation and capacity gaps.

## Investment Description

- Asian Development Bank (ADB)

The TA amount is \$1,002,000, of which (i) \$502,000 will be financed on a grant basis by ADB's Technical Assistance Special Fund (\$500,000 TASF 7; \$2,000 TASF-other sources) and (ii) \$500,000 will be provided on a grant basis by the Financial Sector Development Partnership Special Fund.
