Project Description

According to the Bank's website, the TA will create innovative and operationally relevant upstream knowledge solutions with a particular focus on improving the investment climate by streamlining business regulations, investment promotion, and institutional strengthening of key investment promotion agencies. The TA will also produce knowledge products (KPs) to foster private sector development and diversify the economy, enhance macroeconomic management, and facilitate climate-resilient sustainable development as the country graduates from least developed country (LDC) status in 2026. KPs will also be developed on strategic issues to help Bangladesh achieve its economic aspirations to become an upper middle-income country by 2031 and will focus on core sectors relevant to ADB's operations. The knowledge solutions will include preparing the background documents and inputs for overall policymaking, development plans, sector development, and potential project development.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
