 \$ 1.25 million

ADB-58010-001

Advance Sustainable Clean Energy Network for Development (ASCEND)

Project Description

As stated by the ADB, the proposed TA aims to support the development of diversified and responsible critical mineral (CM) and clean energy technology (CET) manufacturing supply chains by providing knowledge solutions, creating a platform for policy dialogue, and supporting capacity building for the creation of a financing facility.

It adopts a comprehensive approach encompassing integration of CM production with regional CET supply chains, creating enabling environments for domestic value addition, promoting regional policy dialogues, and catalyzing finance to develop diverse and resilient CM and CET supply chains.

The project will support the development of diversified and responsible critical mineral and CET manufacturing supply chains.

No contacts provided at the time of disclosure.

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.adb.org/forms/request-information-form

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: https://www.adb.org/site/disclosure/appeals

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main.
