## Project Description

According to the Bank's website, this technical assistance (TA) program seeks to promote transformational private sector development (PSD) by tackling hurdles that are impeding private sector investment related to environmental, social, and governance (ESG) growth in underserved markets. These interventions will bridge the gap between upstream policy reforms and downstream client-specific interventions. The TA will support innovative and transformational interventions that have a high demonstration effect. The TA will also deliver outputs that support and align with the ongoing upstream PSD reforms, policy actions, and other ESG-related Asian Development Bank (ADB) programs.

The TA is designed to support projects that will have a strong ESG impact for the targeted Central and West Asia developing member countries (DMCs) and will align with ESG-related interventions for focus areas of ADB's private sector financing.

## Investment Description

- Asian Development Bank (ADB)

The TA financing amount is \$1,000,000, which will be financed on a grant basis by ADB's Technical Assistance Special Fund (\$250,000 TASF 7; \$750,000 TASF-other sources).
