Project Description

According to the Bank's website, this proposed regional knowledge and support TA will continue to build on the momentum and provide updates on standards, norms, best practices and approaches in investment management of foreign exchange reserves. Cross-border interaction will support collaborative capacity building and enable officials to increase their awareness and understanding of sound reserve management practices. The TA will facilitate communication and help advance the discussions on investment policy, institutional, and operational issues related to investment management of strategies, frameworks and techniques. In addition, this TA also aims to provide opportunity for reserve managers from ADB members to share their respective country experience and network with their peers in the region.

Investment Description

- Asian Development Bank (ADB)

The TA financing amount is \$500,000, which will be financed on a grant basis by ADB's Technical Assistance Special Fund (TASF-other sources). The participating co-host governments will provide counterpart support in the form of counterpart staff time allocation, secretarial assistance, and other in-kind contributions. Additional TA financing will be requested to finance activities until 2029.
