Project Description

As stated by the ADB, the proposed small-scale technical assistance (SSTA) aims to provide the necessary resources to prepare the SAM: Sun Pacific Solar Expansion Project for ADB's proposed financing. The SSTA will fund due diligence expenses required by ADB. Due to the small size of the transaction, the transaction costs are disproportionately high and warrant the use of grant financing. High diligence costs are a common barrier to nonsovereign financing in the Pacific. The TA will cover costs for (i) due diligence for environmental and social safeguards (E&S), (ii) legal due diligence, and (iii) the lender's technical advisor (LTA). Australia's Department of Foreign Affairs and Trade is providing funding for the SSTA through the Australian Climate Finance Partnership.
