Project Description

As stated by the ADB, the proposed Green Transformation in Public Buildings (GIPUB) Program uses a results-based lending (RBL) modality and will support the government's broader program in energy efficiency improvement of public buildings in the Kyrgyz Republic. The RBL program will focus on public buildings outside of Bishkek as the fiscal capacity in those areas is relatively weak and the conditions of public buildings are more dilapidated. Renovating public buildings outside of Bishkek will generate a higher energy efficiency potential and climate mitigation impact while benefiting the needy and vulnerable public building users, such as kids, pupils, students, and patients.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
