Investment Type(s)	Advisory Services, Grant, Loan
Investment Amount (USD)	\$ 50.50 million
Loan Amount (USD)	\$ 40.00 million
Grant Amount (USD)	\$ 10.00 million

Project Description

As stated by the ADB, the program supports the Kyrgyz Republic's ambitious reform agenda to accelerate climate action, attract sustainable investment, and transition to a low-carbon, climate-resilient economy. It aims to:

- (i) strengthen climate-aligned policies, coordination, and institutional arrangements;
- (ii) enhance the enabling environment for mobilizing public and private finance for climate action; and
- (iii) strengthen adaptation priorities and resilience to climate impacts.

Subprogram 1 (\$50 million), implemented from January 2024 to September 2025, established the foundation for new regulations, sector programs, initiatives, and institutional frameworks. Subprogram 2 (\$50 million), scheduled from September 2025 to June 2027, will continue and expand operationalization of the frameworks that have been adopted. These integrated fiscal, financial, and institutional reforms aim to reduce climate-induced economic vulnerabilities, improve public financial management (PFM), and unlock investment opportunities.

The program's impact is aligned with the National Development Strategy of the Kyrgyz Republic for 2018-2040 and the National Development Program of Kyrgyz Republic until 2030 to provide better economic opportunities for citizens through sustainable, inclusive, and resilient economic growth. The program outcome is climate action, investment, and the green economy transition accelerated. The program will create a coherent and effective institutional setup, mobilize climate finance, and develop adaptation priorities to strengthen the country's economic resilience to climate change. Crosscutting issues of gender and social inclusion are addressed together with improved standards, environmental management, and support to regional cooperation and integration. Strengthened institutions and policies will drive more climate investments, open new sectors for growth, and support a resilient, low-carbon green economy, resulting in higher and sustainable growth.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
