Project Description

According to the Bank's website, the regional technical assistance (TA) aims to enhance country systems and build the capacity of the developing member countries (DMCs) of the Asian Development Bank (ADB) in project design, management, procurement, and financial management. The TA focuses on two key areas: (i) supporting executing agencies and implementing agencies in preparing and implementing ADB-financed projects, and (ii) strengthening national institutions' oversight and strategic management of public procurement and financial management functions. This approach improves portfolio performance and contributes to a broader development impact, with skills that are transferable beyond ADB project financing.

Early Warning System Project Analysis

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
