Developing Resilient Environments and Advancing Municipal Services in
Punjab Phase 2 Project

Quick Facts

Countries	Pakistan
Specific Location	Punjab Province
Financial Institutions	Asian Development Bank (ADB)
Status	Proposed
Bank Risk Rating	B
Borrower	Government of Punjab - Local Government and Community Development Department
Sectors	Infrastructure, Water and Sanitation
Investment Type(s)	Grant, Loan
Loan Amount (USD)	\$ 210.00 million
Grant Amount (USD)	\$ 5.00 million

Project Description

According to the Bank's website, the Developing Resilient Environments and Advancing Municipal Services in Punjab Phase 2 Project (DREAMS 2) will support inclusive, resilient, and sustainable urban infrastructure and services in the intermediate cities of Punjab Province. Water supply and sanitation infrastructure and services of these cities will be expanded and modernized. The project will focus on strengthening the institutional and capacity development of the municipal corporations of these cities to improve service delivery standards, accountability, and operational efficiency to ensure financial and operational sustainability. The project is aligned with the following impacts: urban environment, health, and living conditions improved; natural ecosystems protected; and climate change impacts mitigated. The project will have the following outcome: sustainable, inclusive, resilient, and low-carbon municipal services in the intermediate cities of in Punjab achieved.

The proposed Developing Resilient Environments and Advancing Municipal Services in Punjab Phase 2 Project is poised to fortify climate resilience by increasing the water and sewerage operational capacity to reduce the public health risks and environmental impact for those in and downstream of the two intermediate cities in Punjab. In Dera Ghazi Khan, this entails investment in wastewater treatment capacity complemented by the conversion of the pressurized wastewater network into a low operational cost gravity system. In Sargodha, this entails investment in wastewater treatment capacity complemented by a transition to surface water sources through the expansion of water treatment facilities.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
