Project Description

As stated by the ADB, the following solutions are proposed under a sector development modality: (i) a policy-based loan to deepen the policy framework and support the government in adopting sectoral reforms to accelerate the energy transition; and (ii) a financial intermediation loan (FIL) to support private sector investments in energy efficiency. The FIL component will address a key constraint to the adoption of energy efficiency in Cambodia: access to finance, under favorable conditions, for investments in energy efficiency by local small and medium enterprises (SMEs), including those owned by women. To this end, an Energy Efficiency Revolving Fund (EERF) will be set up and operationalized to provide low interest loans to SMEs with the option of a credit guarantee product. The EERF will be financed with a concessional loan of ADB, with these resources subsequently on-lent to participating financial institutions (PFIs).

The project executing agency will be the Ministry of Mines and Energy.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
