Supporting Baku Green Corridor Analysis

Quick Facts

Countries	Azerbaijan
Specific Location	Baku
Financial Institutions	Asian Development Bank (ADB)
Status	Approved
Bank Risk Rating	U
Voting Date	2024-11-28
Borrower	Government of Azerbaijan
Sectors	Infrastructure, Technical Cooperation, Transport
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.17 million
Project Cost (USD)	\$ 0.17 million

Project Description

According to the ADB, based on a formal request from the Azerbaijan Ministry of Digital Development and Transport (MODDT), the TA will analyze the Azadliq Avenue E119 corridor in Baku for potential development as a mass transit corridor. This pre-feasibility evaluation will determine whether the 14.7-kilometer corridor has the potential to be a public transport value addition to the city.

The TA will support consulting services to evaluate:

- (i) Physical characteristics of the corridor roadways (e.g., right-of-way width, cross-sectional functions, traffic signaling systems, etc.);
- (ii) Operational characteristics of corridor (e.g., passenger and vehicle volumes, pedestrian and bicycle movements, etc.);
- (iii) Technology options for the corridor (e.g., light rail transit or bus rapid transit, battery-electric buses, space for cycle lanes and pedestrian facilities, etc.);
- (iv) Financial analysis of capital requirements and operational profitability; and,
- (v) Preliminary institutional arrangements.

For the bus rapid transit (BRT) option, battery-electric bus technology will also be included in the analysis. This pre-feasibility knowledge work is expected to inform the development of a TA to develop a full feasibility study for an ensuing investment project (i.e., Baku EcoMobility Project). Azerbaijan is hosting the 29th Conference of the Parties (COP29) to the United Nations Framework Convention on Climate Change (UNFCCC) in November 2024; given the timing of the COP, the Ministry of Transport would like to showcase projects with potential for significant greenhouse gas reductions.

Investment Description

- Asian Development Bank (ADB)

ADB Team Leader:

Lloyd F. Wright - Senior Urban Development Specialist (Transport), Transport Sector Office (SG-TRA)

No contacts provided at the time of disclosure.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
