Project Description

As stated by the ADB, the proposed Uzbekistan Power Transmission Grid Enhancement Project (Phase 2) is required to facilitate the supply of electricity generated by existing, under construction, and planned renewable power plants (solar and wind) to the load centers Fergana valley and Tashkent Region.

The Joint-Stock Company National Electric Grid of Uzbekistan (JSC NEGU) requested the Asian Development Bank (ADB) to finance the construction of three high-voltage transmission lines and the expansion of the substations to be connected by the transmission lines. ADB has agreed to support JSC NEGU for the preparation of the feasibility study which will determine the technical and economic feasibility of the construction of the high voltage power transmission lines.
