| Investment Type(s) | Loan |
| Investment Amount (USD) | \$ 24.64 million |
| Loan Amount (USD) | \$ 24.64 million |
| Project Cost (USD) | \$ 103.00 million |

Project Description

As stated by the ADB, the project involves the design, construction, maintenance, and operation of a 100 MW greenfield grid-connected solar PV plant to be built in Pasuruan Regency, East Java. The transmission line for the plant is connected to Gondangwetan 150 kilovolt substation. The distance to the nearest switchyard would be approximately 4.3 kilometers from the project site.

Early Warning System Project Analysis

The ADB categorized the project E&S risks as follows:

Environment - B

Involuntary Resettlement - B

Indigenous Peoples - C

Investment Description

- Asian Development Bank (ADB)

Private Actors Description

PT Hijaunesia Vena Pasuruan is co-owned by PT Indonesia Power and Vena Energy.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
