## Project Description

According to the Bank's website, the first subproject under the Support for a Differentiated Approach to Private Sector Projects in the Pacific Cluster TA will unlock a pipeline of private sector investment opportunities that ADB may have otherwise struggled to support due to the high due diligence costs and low client capacity levels. It will benefit private sector clients in ADB's Pacific DMCs by supporting due diligence costs and project readiness of transactions proposed to be processed through the ADB Wayfinder (Pacific) Program. It will also provide resources to manage ADB's various due diligence, processing, monitoring, and evaluation requirements.

The TA's key objectives are to accelerate inclusive private sector growth, improve models for private sector financing, and achieve best-practice integrity standards for private sector projects. Through the catalytic role played by ADB, the TA will focus on developing the Pacific small island developing states to increase private sector investment in the region.

## ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
