Status	Approved
Bank Risk Rating	U
Voting Date	2025-07-01
Borrower	Regional - Asian Development Bank
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.22 million
Project Cost (USD)	$ 0.22 million

Project Description

According to the Bank’s website, the TA aims to support the integration of displacement considerations into sector investments through the application of data, approaches, and capacity with a focus on poor and vulnerable populations. In recognition of the development challenges, planned relocation of highly climate-vulnerable communities present to DMCs, and the expected demand for MDBs to provide solutions in the coming years, the TA will contribute to enhancing the enablers for planned relocation including through scaling up climate adaptation finance and adopting good practice from community-led relocations. A small-scale TA is being used to provide quick assistance to further support the displacement agenda. The TA responds to ADB Disaster Risk Management Action Plan, 2024-2030 through improved disaster risk knowledge and risk-informed planning and increased investments in disaster risk reduction and climate adaptation.

Investment Description

- Asian Development Bank (ADB)

The TA financing amount is $225,000, which will be financed on a grant basis by ADB’s Technical Assistance Special Fund.
