Project Description

According to the Bank's website, the proposed technical assistance (TA) aims to enhance the Government of Pakistan's institutional capacity in achieving strong operational and country results, including in the areas that the Asian Development Bank (ADB) is closely involved in. The entities that the TA aims to support include the Economic Affairs Division (EAD), executing agencies (EAs), implementing agencies (IAs), and other key stakeholders. The TA will support operational engagement by (i) enabling a robust, implementation-ready project pipeline; (ii) improving portfolio performance through diagnostic studies, facilitation in resolving project implementation issues, cross country and in country good practice exchanges, and capacity building interventions such as targeted training programs; and (iii) ensuring close alignment of ADB support with government's priorities and strategies such as National Economic Transformation Plan (2024-2029) and Uraan Pakistan, which aim to speed up socio-economic change through investments in climate resilience, digital governance, and innovation in delivering services.

The TA will also enhance ADB's strategic engagement and provide upstream support for programming and project preparation by incorporating cross-cutting priorities, such as climate change, gender equality, governance reforms, enhancing institutional capacity and strengthen implementation systems. The TA will assist Pakistan in better positioning itself to make more effective use of development finance by improving its readiness, responsiveness, reform orientation, and effective implementation throughout the project cycle.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
