Chennai Integrated Urban Water Management Project-FMRF

Quick Facts

Countries	India
Specific Location	Chennai
Financial Institutions	Asian Development Bank (ADB)
Status	Proposed
Bank Risk Rating	B
Borrower	Government of Tamil Nadu - Tamil Nadu Urban Infrastructure Financial Services Ltd.
Sectors	Infrastructure, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	\$ 261.00 million

Project Description

According to the Bank's website, the project will improve access to safe water and sanitation services across 426 km² of Chennai while strengthening the institutional capacity of CMWSSB to manage O&M.; It will expand and modernize infrastructure, including a citywide ring main and new pumping stations to improve water pressure and reliability. By combining the ring main with expanded last-mile connections, the project will directly reach households and communities, delivering visible improvements in daily life and significantly raising the standard of living across the city. The project will expand and modernize Chennais sewerage network, upgrade pumping stations, and rehabilitate treatment facility to improve collection efficiency. Pollution from untreated wastewater will be reduced through nature-based solutions while digital tools will enhance monitoring, service delivery and customer engagement. In addition, the project will enhance CMWSSBs performance through staff training, a performance-based O&M; contract, and the use of digital platforms for customer engagement and grievance redress ensuring more responsive and accountable service delivery. Selected training programs will invite participation from other utilities in the region to promote peer-to-peer learning and regional capacity building.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
