Project Description

As stated by the ADB, the proposed small-scale technical assistance (SSTA) will support the electric vehicle (EV) industry in Indonesia, in particular e-motorcycles. The SSTA seeks to further develop a battery market that is open to competition, consistent with Indonesia's objective of supply chain diversification covered in its battery electric vehicle strategy. This SSTA would further grow the long-term sustainability of the market, extending the contribution of this project to decarbonisation.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
